

Investing in Education – California State University - Monterey Bay

Since our very first year as a 501.c.3 Operating Foundation we have invested heavily in the education of today's students as a means of bringing about a more hope-filled tomorrow. California State University at Monterey is among the many educational institutions we have supported.

The Foundation has fostered student social entrepreneurship at CSUMB since 2016. We do this by offering a scholarship opportunity to students who are studying the social entrepreneurship methodology we ourselves employ. Up to three Elfenworks Scholars are named per session, winning small stipends. Additionally, each Elfenworks Scholar has invitation to pay a visit to the Foundation and spend time with founders and the team, at a mutually convenient time within the school year during which they received the non-transferrable scholarship.
